PROFESSIONAL EXPERIENCE

RESENGAL STUDIO

Unity Developer Intern (APRIL 2026 – PRESENT) | Remote

Collaborated with developers of Resengal Studio. Developing a 3d Multiplayer Horror Game. I am working on Player Controls and mechanics related to the player.

KIDORALEARN

Unity Developer Intern (AUG 2025 – MARCH 2026) | Remote

Worked with developers and designers of Kidoralearn. Developed a kids learning app with interactive games. I worked on bug fixing and improved my problem solving skills.

PROJECTS

Save the Balloon — *Android game made with Unity*

A fun and casual 2D endless runner game where the player protects a balloon from obstacles. Published on the Google Play Store.

Developed using Unity and C# with smooth controls and responsive gameplay mechanics. Designed custom animations, particle effects, and audio for an engaging player experience.

Crash and Chaos – *A fast phased 3d co-op endless runner*

Crash & Chaos is a 3D cooperative endless runner developed for the Indie Connect Game Jam. The game features two unique player roles: a thief who navigates an endless road in a car and a police player who rides a helicopter and strategically drops bombs to stop the escape.

Third Person Player Movement System

Developed a modular third-person character movement system in Unity using C# and a Finite State Machine (FSM), implementing responsive locomotion, smooth in-place turning, jump and fall state handling, and grounded detection. Built a raycast-based step-climbing system to detect and smoothly traverse small environmental obstacles, while integrating movement, rotation, and animation states for responsive and consistent character control.

EDUCATION

Sastra Deemed University, TamilNadu — *B.tech, Information and Communication Technology*

Aug 2023 - Present | Currently Pursuing | Expected Graduation: May 2027..

SKILLS

PROGRAMMING : C# , C++

GAME ENGINE : Unity 3D & 2D

TOOLS & LIBRARIES : Visual Studio, Unity Version Control, Git Hub

OTHER

Certification - UNITY CERTIFIED ASSOCIATE GAME DEVELOPER

Selected among **500 participants from Tamil Nadu and Maharashtra** for the **Google × Unity Training Program** in the **Unity Certified Associate Game Developer** track and achieved **Top Scorer** recognition.
